

REFERENCE | ASPIRATIONAL COACHING | DANIELA

“I really appreciated the coaching path as it was structured and developed. It was a fruitful moment of reflection, and an excellent opportunity to deepen some aspects of myself and get to have a greater awareness of my strengths and weaknesses. I recognize that this is only a first step and that the work needs to be longer and more continuous, but it has undoubtedly made me start on the right foot.

The style and approach used were stimulating and never tiring, as well as very welcoming.

I also believe that my Coach's experience in managerial areas and in contexts close to my working reality has enriched and facilitated exchanges between us.”
