“I found the journey very interesting. Iveta's approach was empathetic, friendly, and patient. I found the way to make her particularly useful in the context of changing my professional and personal path. I particularly appreciated Iveta's ability to get me to undergo a critical analysis from a point of view completely different, acting on personal biases that do not allow us to improve.

To conclude, I found the entire path extremely useful, I absolutely did not think it was so immersive.

Beautiful!!!”
